ABOUT US

A FINE HISTORY

In 1971, recognising the need for innovative flexible plastic and polycarbonate manufacturing design, the then directors of AJ Plastics established a small manufacturing operation in Albion in Brisbane. Over the years a fiercely loyal clientele of motorcyclists, boat and ferry operators and horse float manufacturers came to depend on a speedy system of order and delivery where they could specify any size or shape of window or door they needed and were never let down.

Over four decades later, surviving floods and thriving through various economies, our Directors work with a skilled long term staff team that still pride itself on total flexibility providing their customers with exactly what they need as soon as they need it. It's a good recipe! Well known Australian and overseas customers continue to act as ambassadors for AJ Plastics with their brilliant testimonials and word of mouth referrals.

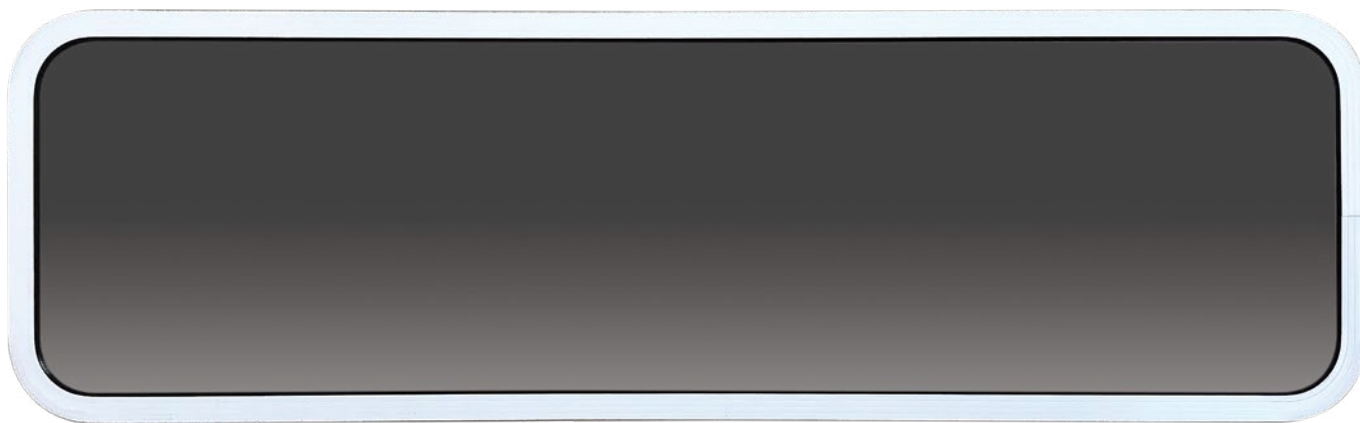

Today AJ Plastics Manufacturing also provide windows for worksite cabins, truck sleeper cabins, donga housing, shipping container conversions, and many happy gooseneck and horse float manufacturers.

CUSTOM FIXED CURVED WINDOWS

AJPM ARE THE LEADING HORSE FLOAT WINDOW SUPPLIERS IN AUSTRALIA

We specialise in made-to-order fixed, curved windows. All our horse float windows are made in Australia at our local factory and are manufactured to your exact specifications.

Our custom curved windows are made from premium polycarbonate which can be either clear or slightly tinted to cut down on both glare and UV rays. You also have your choice of a black or white frame to match the style and colour of your horse float. All our custom windows are waterproof, keeping the interior of your horse float dry and free from drafts and mould.

To correctly measure the size of your fixed curved window you will need a dress makers tape to determine the width, including the curve. The radius can easily be determined by measuring the back of the float and dividing by two. Please don't hesitate to call the team if you have any doubts.

Fixed curve with flat center options also available.

MADE TO ORDER!

- Minimum dimension of 600mm w x 500mm h
- Maximum dimension of 1200mm w x 700mm h

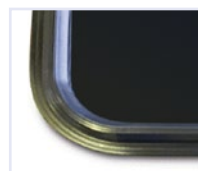

Range of Options:

- **Tint shade:** clear or light tint polycarbonate
- **Frame colour:** black or white powder coated
- 63.5mm Radius Corners or Square Corners

CUSTOM TRAILER DOORS

AUSTRALIAN MADE DOOR PERFECT FOR TRAILERS AND CARAVANS

Hand made with aluminium extrusion and composite panel.

All materials including the hinge and weather seal are locally sourced. Although we are unable to do an attached fly screen door, we can install a sliding window (with a fly screen) to allow air flow when closed.

The handles are slam action and have a manual override internally for both the lock and deadbolt so you can't get locked in.

- Quality Australian Made product
- Personal and speedy service
- Recommended by Australia's top Manufacturers
- 40 Years Strong

Range of Options:

- Square Corners
- Left- or right-hand heavy duty piano hinge
- Black or white powder coated frame
- Black or white composite panel infill
- Black, white, or chrome lock
- With or without sliding window
- Clear, light, or dark tint acrylic

CARAVAN ACCESS DOORS

THE PERFECT ADDITION TO YOUR CARAVAN, BUS, RV OR TRAILER

Whether you're simply replacing a previous access door or refurbishing your vehicle, there's no better product on the market.

When you're out on the road and heading off on adventures you need to make the most of all of your vehicle's space. Space hidden behind the walls of your camper offers little pockets in which you can store a ton of handy items, objects and contents. That is, if you can access it!

Our access doors unlock previously inaccessible storage spots. Caravans and trailers have limited space, so it's important we make the most of every square inch

Range of Options:

- Square Corners
- Top, bottom, left, or right heavy-duty piano hinge
- Black or white powder coated frame
- Black or white composite panel infill
- Black, white, or chrome lock

CUSTOM SLIDING WINDOWS

SLIDING WINDOWS THAT NEVER STICK - MADE TO YOUR NEEDS

- Quality Australian Made product
- Complete Flexibility – various sizes and shapes
- Personal and speedy service
- Used by Australia's top Horse Float and Trailer manufacturers since 1971
- Robust and durable

Why choose AJ Plastics sliding windows?

Quality sliding windows for your van, caravan, RV, motor home, horse Float, 4WD canopy, or camper. Sliding windows is a great way to promote air flow in your horse float or get a breeze in your caravan or 4wd Canopy. When ordering a sliding window, you can have it supplied with or without a fly screen and the lock mounted internally or externally.

PLEASE NOTE Our sliding windows are suited to a flat, upright surface – not curved. We advise against installing them on a camber/angle due to issue with water leakage.

Range of Options:

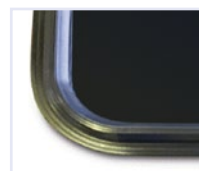

- **Tint shade:** clear, light, or dark tint
- Acrylic or ADR Approved Toughened Glass
- **Frame colour:** black or white powder coated
- 63.5mm Radius Corners or Square Corners
- Internal or external lock
- With or without fly screen
- Water bar (used to deepen channel)
- Cosmetic internal trim ring to suit up to a 45mm wall thickness
- Pushout on gas struts (only available in square corners)

AVAILABLE FRAME COLOURS & CORNERS:

SQUARE

RADIUS
